

Mobilizing Tomorrow UPDATE

Creating a collaborative, vibrant, and dynamic region of lasting value, equity, and diversity.

Mobilizing Tomorrow is the region's long-range transportation plan. It is a fiscally constrained outline of regional investment in the transportation system for the next 30 years, updated every five years. Only projects identified in this plan are eligible for MPO funding and consist of the highest priority transportation improvements for Greater Des Moines.

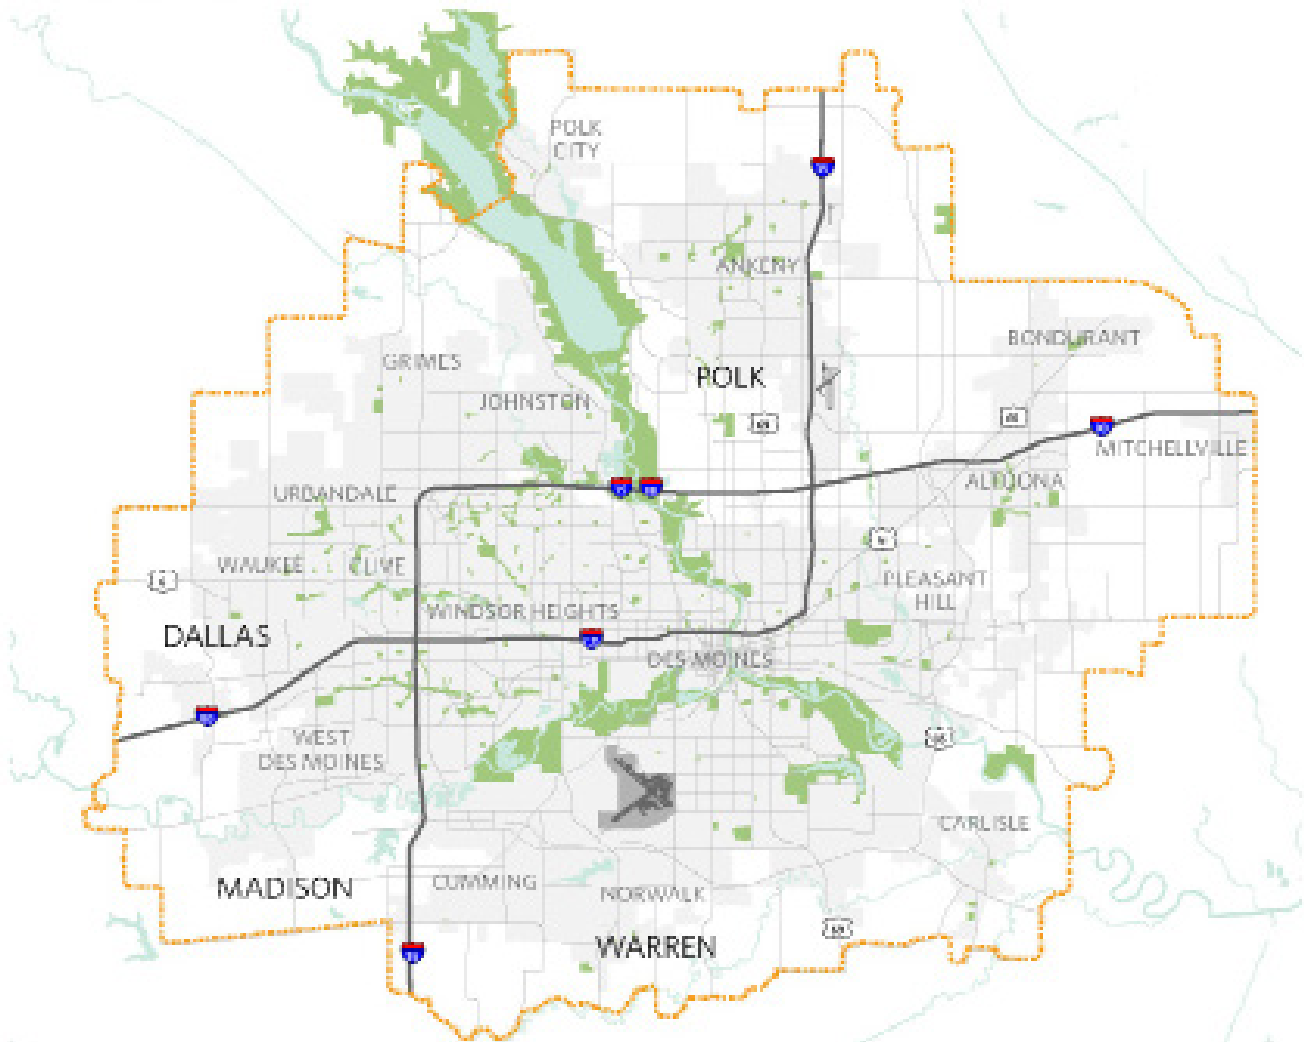

Your Involvement

Transportation is rapidly evolving as demographics shift, technology advances, and preferences change. We need help ensuring Greater Des Moines will be a leader in the field, adapting and supporting future growth and long-term vitality.

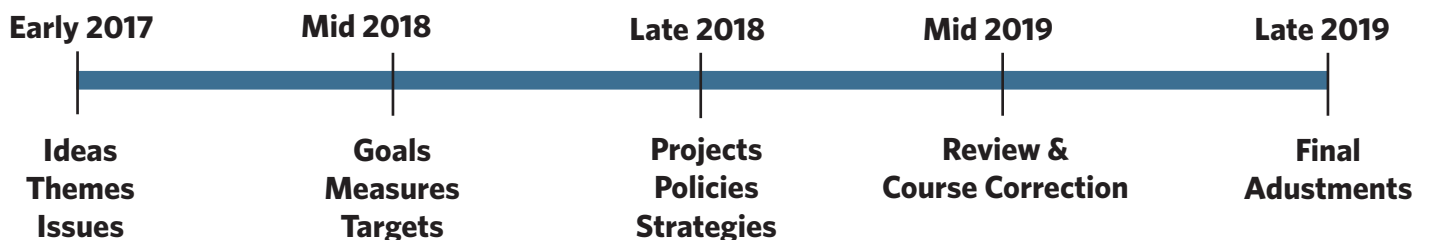

As a regional leader, you have a unique perspective of the coming needs and demands on Greater Des Moines. Help us identify crucial challenges in our communities and target transportation investments to break barriers to future success.

Why This Matters

The Long Range Transportation Plan (LRTP) sets the course for transportation improvements for the coming decades for the Greater Des Moines region. Major region projects are identified and prioritized for future funding and support.

Planning Timeline

Who We Are

The Des Moines Area Metropolitan Planning Organization (MPO) is a regional convener of 16 cities and three counties that sets the long-term vision for transportation. From walking to freight movement, bicycling to transit, the MPO facilitates regional discussion and shared priorities for the future health and success of the transportation system.
