Welcome to Waukee’s newest unique attraction - **Waukee’s Awesome Solar Powered Sculpture Park**

A unique blend of Art and Science!

The sculpture park is a public green space located in the heart of Waukee and is part of the Fox Creek Park.

We invite you to enjoy your experience, learn about clean energy and at the same time immerse yourself in a blended artistic world.

During your visit, we request your help in preserving the park for future generations by not touching, sitting or climbing on the sculptures.

WHAT CAN YOU DO

**ENJOY** being outdoor with the whole family including your pets. Time for some Nature Therapy, fresh air and real interaction outside the digital world.

**LEARN** about clean energy. Did you know the energy produced by WASPSP alone saves 25% of energy cost of Waukee City buildings.

**IMMERSE** yourself in the wonderful world of 25 artistic sculptures. From a strongman sculpture to the beautiful tree sculpture that becomes a Christmas tree in the Winter wonderland.

**PLAYTIME** for the kids in the playground area with slides, ice rink in the winter and a splashpad to cool down in summers.

**STAY FIT** by keeping up on your steps in the walking trails throughout the park.

**MAKE MEMORIES** by snapping pictures from many vantage points around the sculptures.

**STAY CONNECTED**; our charging stations will help power your devices and electric vehicles.

**PARTY** with friends and family; an ideal location for your next get together.

BEYOND THE PARK

Continue your engagement and learning from the park visit back at home or school!

- Raise awareness on Climate Change
- Explore ways of incorporating clean energy
- Dabble in expressing your artistic side by drawing, painting or creating a model of your favorite sculpture (sample below)
