ISSUE: Excess TAP Funding Awards

REPORT and VOTE: Consider approval of the excess TAP funding awards.

BACKGROUND:

The Trestle to Trestle bridge is part of the Trestle-to-Trestle Trail, which opened in 2007, providing a crossing point beneath Interstate Highway 35/80. It connects with the Inter-Urban and Neal Smith trails near Euclid Avenue, providing access to downtown Des Moines and surrounding areas. The bridge crosses over Beaver Creek in Johnston.

In March 2019, the bridge collapsed due to the formation of ice jams around it. As a result of this collapse and the Neil Smith Trail detour due to the construction of I 35/ I 80 bridge, this crossing has become a challenging pinch point for trail users. Polk County Conservation, that owns the trail, has worked on a design and is seeking funding to replace the bridge. The cost estimate to replace the collapsed bridge is about $1.5 million.

Polk County approached staff to see if there was any funding available for this project. Staff reviewed the excess TAP funding amount and determined that there is $700,000 in available funding for TAP projects.

The Funding Subcommittee reviewed the excess funding available and eligible projects and developed a recommendation for awarding excess funds at their September 24, 2020, meeting.

The Funding Subcommittee’s excess TAP award recommendation is included on the following page.

RECOMMENDATION:

Recommend approval of the Funding Subcommittee’s excess TAP funding award recommendation.

ISSUE: FFY 2021-2024 TIP Amendment Request

REPORT and VOTE: Report regarding an amendment to the Federal Fiscal Year 2021-2024 Transportation Improvement Program (FFY 2021-2024 TIP) to include Polk County’s Broadway Ave project that has been awarded BUILD grant funding; consider approval.

BACKGROUND:

Polk County has been awarded a $25 million grant in the latest round of US DOT BUILD Transportation Discretionary Grants Program funding for its Broadway Ave project, stretching from Iowa Highway 415 to US Highway 6. This project will include reconstruction of the 5.2-mile roadway into a three-lane urban cross section that includes a center two-way left-turn lane with a total estimated construction and right-of-way acquisition cost of $34,818,000.

The project also includes plans to add more through and turn lanes to major intersections, including IA-415, US 69, and US 6. These extra lanes will accommodate heavier traffic movements at those locations during peak commute times. A proposed underpass will allow vehicles and trucks to pass freely under the busiest two rail crossings in the corridor, and a multi-use trail from Fourmile Creek to IA Hwy 415 will connect to the Gay Lea Wilson trail and the Chichaqua Valley Trail.

The project also proposes to eliminate a freight impediment by lowering Broadway at the 1-235 overpass structures to eliminate the 14'-4" height restriction that is currently in place.

RECOMMENDATION:

Recommend approval of Polk County’s request to amend the FFY 2021-2024 TIP to include the Broadway Avenue Multimodal Improvements project.

ISSUE: TAP Project Scoring

REPORT: Update regarding the proposed update to the TAP Scoring Criteria.

BACKGROUND:

MPO Staff is proposing an update to the TAP Scoring Criteria and Process. The current scoring uses 9 broad criteria to allocate points to projects and uses a two-step process to select award recipients. The MPO is proposing to refine and flesh out the scoring criteria and tie it to the larger LRTP Goals. This proposal also eliminates the need for a two-step process to score the projects including the establishment of a separate scoring committee to review applications.

The proposed TAP scoring criteria is included on the following page.

ISSUE: Safe Routes to School Category for TAP Funding

REPORT: Update on developing a set-aside of the TAP funding towards Safe Routes to School (SRTS) projects.

BACKGROUND:

MPOs/RPAs can allocate a percentage of their TAP funds towards SRTS projects. MPOs/RPAs award 50 percent of the federal aid. Iowa DOT provides 30 percent of the federal aid. Twenty percent local match is required. This makes additional TAP funding available to MPOs for awarding other projects as a result of the DOT contributing 30 percent of the federal aid.

MPO staff discuss the development of a SRTS set-aside with the Funding Subcommittee at their September 24, 2020, meeting. The Funding Subcommittee recommended that a target of 20 percent of TAP funds be set-aside annually for SRTS projects.

If no Safe Routes applications are received, the funding will roll over to general TAP projects. SRTS projects will need to meet DOT eligibility requirements and will receive points according to the proposed TAP scoring criteria.

RECOMMENDATION:

None. Report and discussion only.

ISSUE: Federal Legislative Agenda for Annual D.C. Trip

REPORT: Report and discussion on the process to identify priority projects and policies for the Greater Des Moines Partnership’s annual trip to Washington D.C.

BACKGROUND:

The MPO staff annually works with MPO member governments and participating agencies to develop a list of priority transportation projects to discuss with congressional members during the Greater Des Moines Partnership’s (GDMP) annual trip to Washington, D.C.

Staff will begin the project and policy solicitation process in October. Key dates in the process are as follows:

- October – Solicit changes to the existing project list from member governments. Changes are due by November 20, 2020;
- December/January – Draft project listing provided to MPO committees for discussion;
- February – Surface Transportation Program (STP) Funding Subcommittee meets to identify priority projects from the assembled listing;
- March – MPO committees take action to approve the project listing and priority projects;
- April – GDMP publishes the Policy Book; and,
- May 2021 – GDMP Trip to Washington D.C.

Staff requests that member governments submit their projects and policies by November 20, 2020.

ISSUE: Integrated Corridor Management Update

REPORT: Update regarding the development of working groups to help guide the Des Moines Integrated Corridor Management (ICM) project.

BACKGROUND:

Over the last few years, the Iowa Department of Transportation (DOT) has studied integrated corridor management (ICM) strategies and selected capacity improvements to cost-effectively and proactively manage traffic in the Des Moines metropolitan area. The Iowa DOT plans to work with local jurisdictions to cooperatively use ICM strategies throughout the area as a means to proactively manage traffic under all types of conditions to deliver improved levels of safety, mobility, reliability, and quality of life for all users.

Additional information will be provided at the October meeting regarding the development of working groups comprised of local jurisdiction representatives to help guide the ICM project moving forward.

ISSUE: Purple Heart Highway Update

REPORT: Discussion regarding the updated Iowa Highway 5 / US Highway 65 Freeway Corridor Interstate System Designation Summary Report

BACKGROUND:

Over the last decade the MPO has pursued efforts to designate the US 65/Iowa 5 bypass as an interstate. At the MPO’s request and with funding from communities along the corridor, the Iowa DOT produced in 2012 the Iowa Highway 5/US Highway 65 Freeway Corridor Interstate System Designation Summary Report. This report outlined the potential improvements necessary for the interstate designation, including issues related to roadway design and safety, right-of-way access, and signage. The report also identified the need to address how to handle slow moving and/or overweight agricultural equipment.

Since the report’s publication the MPO and local stakeholders have worked to identify options to address the outstanding issues identified by the Iowa DOT, particularly the slow moving and overweight vehicle issues. The primary concern is that without an alternative to cross the Des Moines River, some farm operators would be unable to access some fields and/or grain elevators if they are unable to use the bypass.

Staff met with representatives of Farm Bureau in early March and had additional discussions with the DOT. The DOT recommended contracting with HNTB (who did the initial study) to update the Iowa Highway 5 / US Highway 65 Freeway Corridor Interstate System Designation Summary Report.

A copy of the Iowa 5/US 65 Re-Designation Update report is available on the MPO website (click to access).

Staff will provide an overview of the report at the September meeting.

ISSUE: Water Trails Update

REPORT: Discussion regarding the execution of the BUILD Grant for Central Iowa Water Trails.

BACKGROUND:

In November, the Des Moines Area MPO was awarded a $25 million grant from the Better Utilizing Investments to Leverage Development, or BUILD, grant program of the U.S. Department of Transportation.

The grant is significantly accelerating the implementation of the Central Iowa Water Trails initiative, specifically a five-mile stretch of the Des Moines River including the mitigation of the Scott Avenue Dam and improvements at three neighborhood access points.

Snyder and Associates has been brought on as the owner’s representative and is providing weekly project updates. Notable progress includes:

- Schematic design is the key focus for the possible dam-modification projects.
- Concepts are being refined for the neighborhood access sites.

Staff will provide updates as part of the discussion.
